ATHAR ZUBAIR

BS DATA SCIENCE STUDENT

OBJECTIVE

To obtain an internship opportunity where I can apply my knowledge of Data Science and enhance my technical, analytical, and problem-solving skills in a professional environment.

EDUCATION

BS Data Science

City University of Science and Information Technology
Semester: 4th Semester

Intermediate

Peshawar Model Degree College, Peshawar

Matric

Farabi School System, Chamkani, Peshawar

MAJOR PROJECTS / ACADEMIC ASSIGNMENTS

- **Loan Prediction (Introduction to Data Science – 4th Semester)**
 - Developed a basic predictive concept for loan approval using data science techniques.
 - Applied data analysis and introductory machine learning ideas.
- **Student Result Management System (Database Systems – 3rd Semester)**
 - Designed a database system to manage student records and results.
 - Worked with tables, queries, and data organization concepts.
- **Leasier Connect to MP3 (Digital Logic Design – 3rd Semester)**
 - Implemented a basic DLD-based project involving system logic design.
 - Improved understanding of digital circuits and logic gates.
- **AI Machine Training Project (3rd Semester)**
 - Learned basic machine learning concepts and model training process.
 - Explored how simple AI systems are trained using data.
